Lilian is taking material in some of my later bubbles that aren't the ones asking ORD or programs to do something. Some of that language from the bubbles is moving into the text.

Ex. 5 - Deliberative Process

I will send you the next version when it comes, but the changes aren't going to be major. I just wanted you to know that there is yet another version coming. I should get it this afternoon.

Thank you, Elise.

So after considering all of the competing priorities and holiday schedules, here is our plan: Alyssa Lareau has been assigned to review the letter. We will provide our thoughts by this Thursday or latest Friday morning. After that, Alyssa will be available again starting on Tuesday afternoon. Daria is on leave starting tomorrow, and I will be taking some time next week, so please loop Alyssa, Daria, and me all into emails on this. In contrast, please note that Laurie Gelman is assigned to other projects at the moment, and will be traveling and unavailable.

Thank you,

Christine

I will work from yours. I haven't finished cleaning out & up the document.

The comments I wanted to leave were the one about the audit privilege & the ones to ORD & other programs.

Everything else should go.

Also, during the last permit renewal process the hearing officers made 2 recommendations that NC DEQ pursue before the next permit cycle – (1) reexamine the 2002 protocol for monitoring groundwater around CAFOs to determine whether the protocol provides adequate protection of human health & the water resources of the state.

(2) evaluate whether Tropical Storms & Hurricanes are the only extreme rainfall events that should be specifically addressed by the General Permit.

Hi Laura, Jeryl and Ericka, let's please make sure we log this in ASAP and issue an acknowledgement letter ASAP. We were kind of expecting this retaliation complaint. Ericka, I would like for you to serve as case manager for this one given it is directly related tot he REACH case. Let's also start reviewing this quickly regarding the jurisdictional issues so that we can issue the acceptance letter. QUESTION I would have is do we want to join this issue to the existing case or open a separate complaint? Would appreciate GC's take on this Q. Thanks!

Subject: EPA OCR File No. 11R-14-R4

Dear Ms. Dorka,

Attached please find a letter submitted on behalf of the North Carolina Environmental Justice Network, Rural Empowerment Association for Community Help, and Waterkeeper Alliance, Inc., requesting that OCR investigate a claim that DEQ, directly and, also, through its support for the actions of the North Carolina Pork Council and National Pork Producers Council, in connection with their disruption of Alternative Dispute Resolution on January 13th, engaged in and failed to protect Complainants from intimidation, which is prohibited by Title VI and EPA regulations.

We appreciate your attention to this matter and welcome the opportunity provide any additional information.

Sincerely,

Marianne

My attempt. It seems pretty passive voice.

I didn't see the model, so I am just going with what seemed safe for a press person to say.

Anything more complicated than "here are the dates things happened" gets sent to you.

Don't know if this is TMI or not enough.

Thanks, Mary

Hi Mary – I have some proposed edits. **Ex. 5 - Attorney Client/ Deliberative**
Ex. 5 - Attorney Client/ Deliberative

Also, see what I added to the very last paragraph – Elise, please take a look as well. In light of Avi's comments I think that language was too vague because he did not really understand what we meant, so others won't either. Please let me know what you think of what I added. Thanks!

Subject: RE: REACH - made proposed changes discussed at meeting

Thank you. The new mailing address is now in the draft letter.

The CRM remains a yellow request for a link. We can fix that if the final CRM gets posted before the letter goes out.

I am attaching the UPDATED draft in case Lilian wants to accept or edit the proposed language I provided.

Lilian if you do finalize language, please then send it back to me for final footnote clean up.

Thanks, Mary

ECRCO & CRFLO-

I have made proposed changes to address the comments made in today's meeting. They are in redline so you can see them.

Also, I received ORD's final comments & their suggested language has been adopted into this version and that section is no longer in redline.

We are waiting to hear whether Avi has any further comments. In the meanwhile, Adam is helping me clean up the footnotes.

But also remember we still need to insert a CRM link & to know whether Lilian's mail code changed.

Thanks, Mary

Subject: Updated drafts of REACH letter for Avi meeting at 12

All-

I have incorporated all of the comments received from DOJ and all but one comment from OAR because it conflicts with ORD's language.

ORD said they will let me know today whether to keep their original text or adopt OAR's. Also, ORD is still checking on whether & how to discuss the Wing 2000 study & the 2016 Johnston study – so there is still a comment bubble in that area & draft text as a signal it is still in flux.

OECA said they had no comments & to my knowledge we have not heard from OW or OLEM.

R4 did not send any comments during this last review cycle.

The redline version is only for purposes of showing the changes that were made.

The clean version which we should use for the Avi meeting adopts those changes & also includes cleanup of some additional typos & formatting issues.

Thanks, Mary
